## LEARN. CONNECT. GROW.

In keeping with its primary goals to promote better products through education and information, PMCA is pleased to offer a series of specialized training courses. Each course is held at the facilities of a confectionery manufacturer or an approved university facility, is conducted by well-qualified facilitators and provides both theoretical and hands-on training.

The program has been designed to create an opportunity for economical and practical training for employees of confectionery manufacturers of all sizes, and for suppliers who wish to become better versed in confectionery production. All courses are two to four days long to accommodate the regular job demands of participants.
